

### Nero Clear® Whole House Water Refining System

Upflow Regeneration drives the hardness minerals up through the already depleted resin and out to drain - saving both salt and the unused portion of the resin for future use.

- Two tank carbon system keeps media beds separate, allowing for more carbon contact for improved chlorine, chloramines and organic removal
- Carbon can be replaced without replacing the resin bed
- Same benefit as separate systems but with cost of only one control valve
- Salt-efficient upflow regeneration
- Exclusive NSF Certified electronic control valve with seven year warranty featuring proven piston, seal & spacer technology
- Fully adjustable cycles allow customization to the most efficient settings based on specific water quality requirements
- Backlit LCD display screen with no confusing codes or symbols. The 89 Control features a large 4 line / 80 character touch pad screen. The 785 control features a 2 line / 32 character display with rotating information display (i.e. date last regenerated, volume remaining).
- NSF Certified fibreglass pressure tank with lifetime warranty
- High density polyethylene salt tank with lifetime warranty
- Brine safety valve for added overflow protection
- Plastic salt grid prevents salt bridging
- Unique precision turbine meter is incorporated in system bypass valve saving space over 4" of floor space
- Time saving quick connect fittings on brine line, drain line (with 0-ring seal) and power cord for fast and easy installations

### Nero Clear®

#### Whole House Water Refining System

## The most advanced and sophisticated water clarifying system in the industry.

Rid your water of hardness minerals (calcium and magnesium) plus filter out bad tastes and odor caused by chlorine, chloramines or organic matter.

This unique two tank system keeps the two media beds separate, allowing for more carbon contact which greatly improves the removal of chlorine, chloramines and organics.

You get the same benefit as a separate water softener and whole-house carbon filter, as the single control valve operates both systems.

Enjoy truly-clarified water throughout your home!

Enjoy soft, clean, truly-clarified water.

- Great tasting water
- Save money & energy
- Removes chlorines, chloramines, odors and other harmful contaminants
- Soft skin & silky hair
- Spot free dishes
- Brighter laundry
- Eliminate all chemicals in home
- Protect plumbing & water using appliances from scale build-up
